

## The **RMCentral** Solution

To help its clients maximise the benefits of web-based collaborative solutions, idRisk has developed **RMCentral**, a modular suite of best-of-breed web-based solutions to assist risk managers to remain in control. **RMCentral** supports four areas:

### ⊙ DATA GATHERING

idRisk has developed a range of pre-designed web-based forms that can be issued in multiple languages, can be emailed to any number of respondents and can be amended by the company's own risk manager. The process is fully auditable.

### ⊙ INFORMATION AND ACTION MANAGEMENT

**RMCentral** has a central document repository with variable access rights and the ability to work on documents with other members in a real-time web environment. It also enables daily email notifications of changes and developments and is customisable.

### ⊙ COLLABORATION AND COMMUNICATION

**RMCentral** enables users to have any number of project folders, each with its own access rights. By making all the information centrally accessible, project members can avoid the excessive use of email and gives a full picture anytime, anywhere. The Web-based meetings and presentations that **RMCentral** allows also improves information sharing and increases efficiency.

### ⊙ SELF-CERTIFICATION

A range of modules help clients to understand their employees awareness of risk management and give feedback.

## Benefits

- ⊙ **Speed:** All authorised members on a project get immediate access to information as soon as it is logged
- ⊙ **Achievement of results:** By being able to work with multiple 3<sup>rd</sup> parties on documents in a real-time environment, the need to send lengthy emails with suggested changes can be relegated to the past.
- ⊙ **Accessibility anytime/anywhere:** Through web access, information can be retrieved from anywhere.
- ⊙ **All members share the same information:** There is no longer a need for multiple versions to be stored.
- ⊙ **Security & Transparency:** By agreeing who will have access to what information, the risk of uncontrolled copying is greatly reduced.
- ⊙ **Increased efficiency and reduced administration:** Administrative burden is greatly reduced through the management of one central platform;
- ⊙ **Rapid payback:** 100%+ payback within 9-12 months
